Hi Brad,

Do you have the page 3 referenced at the bottom of page 2? If so please resend as a complete document. This is a succinct and mostly objective review of the HAMP project to date.

Eric L. Matson, P.E.

We should possibly expect a re-engagement of the BIA regarding the HAMP.

John,

Attached is testimony provided by Hopi Chairman H. Honanie regarding infrastructure needs of the Tribe. See highlighted sections on page #2 regarding HAMP. Good information retrieved today online; I wanted to share, as this is current.

I'm unaware if anyone in Facilities Management in Albuquerque is presently involved with the HAMP, but funding to complete the project should remain a high priority for the Bureau and therefore Facilities should participate during the monthly HAMP conference calls. With Eldine's retirement, BJ or whomever should assign a BIA Lead for the Project (someone in a position who can both request and approve funding).
